

آموزش انگلیسی با انیمیشن فورکی - قسمت نهم (پنیر چیه؟)

فورکی باز هم اومده پیشمون تا یه سؤال جدید بپرسه. این بار می‌خواد بدون پنیر چیه! فورکی می‌خواد بدون این خوراکی خوشمزه چیه و برای رسیدن به جواب سؤالش از دوستش، باترکاپ، کمک می‌گیره. باترکاپ یه اسب تک‌شاخه که توی داستان اسباب‌بازی ۳ معرفی شد.

فورکی باترکاپ رو این‌جوری معرفی میکنه:

“And to help me with that is a horse with an ice cream cone on his head, Buttercup”

که یعنی داره شاخ روی سر باترکاپ رو به قیف بستنی تشبیه می‌کنه.

فورکی، مثل همیشه، زود می‌ره سر اصل مطلب و از باترکاپ درباره پنیر می‌پرسه. باترکاپ هم بهش می‌گه از اونجایی‌که خودش یکی از وسایل آشپزخونه به حساب می‌آد، باید این رو بدونه. ولی فورکی، با اینکه خیلی چیزها می‌دونه، هیچ‌چیزی راجع به پنیر نمی‌دونه. از طرفی، باترکاپ هم از دست سؤال‌های تموم‌نشدن فورکی خسته شده و به فورکی می‌گه: «تو داری همه رو توی اتاق بانی با سؤال‌های زیادت شکنجه می‌دی، و راستش رو بخوای، دیگه داری می‌ری روی اعصابم!»

ولی انگار فورکی دست‌بردار نیست و باز هم سؤال داره. برای همین، باترکاپ، تصمیم می‌گیره فورکی رو پشتش سوار کنه و توی کوتاه‌ترین زمان ممکن، جواب خیلی از سؤال‌هاش رو بده و با این کار، بقیه اسباب‌بازی‌ها رو نجات بده.

متأسفانه، باترکاپ هنوز فورکی رو نشناخته و نمی‌دونه که فورکی به این راحتی‌ها خسته نمی‌شه. اون دوباره سؤالش رو تکرار می‌کنه. باترکاپ هم که حسابی عصبانی شده، به جای جواب دادن، ازش یه سؤال می‌پرسه. فورکی هم جواب سؤال باترکاپ رو می‌ده و دوباره برمی‌گرده سراغ سؤال خودش، یعنی پنیر.

البته باترکاپ چیزی رو به فورکی توضیح نمی‌ده، ولی به جاش یه قالب پنیر براش می‌آره و می‌اندازه روی سرش. این‌جاست که فورکی می‌فهمه پنیر چیه و یه جورهایی جواب سؤالش رو می‌گیره.

اگه يادتون باشه، چند وقت پيش يه پست وبلاگ درمورد فوركي داشتيم و توش درباره اين اصطلاح صحبت كرديم:

“To jangle someone’s nerve”

به اين معني كه كسي رو اذيت كنيم يا اعصاب كسي رو به هم بريزيم.

فوركي از دوست جديدش، باتركاپ، درباره پنير پرسيد و علاوه بر اون، جواب خيلي از سؤالهاي ديگهش رو هم گرفت؛ سؤالهايي كه حتي مطرحشون نكرده بود و باتركاپ جلوجلو به همهشون جواب داد. وسط اين همه سؤال و جواب جديد، فوركي كلي لغت و اصطلاح تازه ياد گرفت، كه امروز قصد داريم با هم مرورشون كنيم. آماده ايد؟

ice-cream cone (1)

قيف بستني

“.And to help me with that is a horse with an ice-cream cone on his head”

—
(oughta (ought to (2)

بايد

“.Well, you oughta know about that, being a utensil”

—
utensil (3)

ظرف/وسيله آشپزخانه

—
combination (4)

ترکیب

“You’re a fork-spoon combination”

—

let’s go with it (۵)

همین رو استفاده می‌کنیم

—

frankly (۶)

صادقانه بگم...

“And frankly, you are jangling my last unicorn nerve”

—

!for cryin’ (crying) out loud (۷)

پناه بر خدا! خدای من!

—

carry to the ten’s spot (۸)

ببر به ستون دهگان (در عمل جمع در ریاضی)

—

dark matter (۹)

مادهٔ تاریک

“trillions and tons of matter and dark matter interacting with energy”

—

parallel universes (۱۰)

جهان‌های موازی

within our grasp (۱۱)

دست‌یافتنی

economics (۱۲)

علم اقتصاد

خودتون هم می‌تونید کلمات و اصطلاحات جدیدی رو به این لیست اضافه کنید، و یادتون باشه که در کنار معنی درست کلمات، تلفظ صحیحشون رو هم تمرین کنید که یه وقت کلمه‌ای مثل think رو با tink اشتباه نگیرید!

“What is Cheese?”

Forky is here to ask a brand-new question. This time, he wants to know what cheese is. He needs to know what this delicious food is, and therefore, he asks his friend, Buttercup, to help him. Buttercup is a unicorn that was introduced in Toy Story 3.

This is how Forky introduces him: “And to help me with that is a horse with an ice cream cone on his head, Buttercup!” which means that he compares Buttercup’s horn to an ice cream cone.

Forky, as always, cuts to the chase and asks Buttercup about cheese. Buttercup implies that Forky, being a utensil, must already know what it is. But although Forky knows so many things, he doesn’t know a thing about cheese. On the other hand, Buttercup is annoyed by Forky’s never-ending questions and tells him: “You are torturing everyone in Bonnie’s room with so many questions, and, frankly, you are jangling my last unicorn nerve”.

But Forky doesn’t plan to stop bugging Buttercup, as he still has some more questions. That is when Buttercup decides to ride him on his back and speed teach Forky everything, to save everyone the trouble.

However, Buttercup doesn’t know Forky yet and doesn’t know that he won’t easily give up. Again, Forky asks another question. Buttercup, being quite angry with Forky, asks him a question instead of answering his. Then Forky answers his question and immediately repeats his question.

In the end, he doesn't get an explanation from Buttercup, but instead, he brings Forky a piece of cheese and throws it on his head. This is when he finally finds out what cheese is and somehow gets an answer.

If you remember, a few weeks ago, we had a blog post about Forky on our website and explained the following idiom: "to jangle someone's nerve," which means to make someone feel annoyed or nervous. You can take a look at the Lingemy website and read the blog post [here](#).

In the ninth episode, Forky asked his new friend, Buttercup, about cheese, and also, he got answers to other questions that he hadn't even asked, and Buttercup answered them all in advance. While asking all these new questions, he learned lots of new words and expressions, which we intend to review today. Are you ready?

1) ice-cream cone = a hard, thin cooked cake shaped like a cone, that you put ice cream in

"And to help me with that is a horse with an ice-cream cone on his head."

2) oughta (ought to) = should

"Well, you oughta know about that, being a utensil."

3) utensil = a thing such as a knife, spoon, etc. that you use when you are cooking

4) combination = two or more different things that exist together or are used or put together

“You are a fork-spoon combination.”

5) let's go with it = let's just agree upon it

6) frankly = honestly; used to show that you are saying what you really think about something

“And frankly, you are jangling my last unicorn nerve.”

7) for cryin' (crying) out loud = used when you feel annoyed or impatient with someone

8) carry to the ten's spot = we use this expression when we are adding up to one-digit numbers and the result is a two-digit number, so we have to write the ten's digit on the left side of the result

9) dark matter = a type of matter that scientists think may exist, and that cannot be seen but seems to affect the movements of stars

“trillions and tons of matter and dark matter interacting with energy”

10) parallel universes = universes theorized as existing alongside our own, although undetectable

11) within our grasp = likely that we will achieve it

12) economics = the study of how money and goods are produced and used

You can add some more words and expressions to this list, and besides learning the correct meaning, remember to practice the correct pronunciation, so as not to mistake "tink" for "think."
